

GS! ^{Skylark} *Gran Sport*

GS Window Trim

Announce your new Gran Sport with this big set of window trim. The largest panel (16 $\frac{1}{3}$ ' x 2') tells the passer-by that the sporty new Gran Sport is here. The smaller panels (4 $\frac{1}{2}$ ' x 2') emphasizes three of the most important benefits of Gran Sport—Great Style, Great Scat, and Great Smoothness.

Each colorful panel has handy Kleen-Stik spots for quick, easy mounting on any showroom window. These panels can be displayed on your showroom window in a variety of ways—or they can be used on showroom walls or other locations.

Be sure to put 'em up right away!

NOTE: *Because the large header panel of this trim is cut into three pieces on a slant—and because the type is printed in italics (to give a feeling of action)—be sure it is hung perfectly horizontal, to avoid an optical effect of crookedness.*
